AFRL directorate reaches out to future S&Es

WRIGHT-PATTERSON AIR FORCE BASE, Ohio — The Air Force Research Laboratory's Col. David A. Harris, deputy director of the Materials and Manufacturing Directorate (ML), provided students with an overview of the directorate's mission as part of the Students Exploring Advanced Technologies (SEAT) Program. SEAT is a collaborative partnership program between AFRL/ML, Dayton Public Schools and Wilberforce University and offers high school students who display an aptitude in mathematics and science the encouragement to pursue a college education in science and engineering.
